

# IFTA Trip Mileage and Fuel Record

Mileage and fuel source record for one trip in U.S. operations. Include loaded, empty and other travel.

|                                                |                      |                          |                     |
|------------------------------------------------|----------------------|--------------------------|---------------------|
| Carrier / IFTA licensee                        |                      | Driver name              |                     |
| Truck / tractor unit or VIN                    |                      | Trailer / trip reference |                     |
| Trip beginning date                            | Trip ending date     |                          | Distance meter type |
| Origin                                         |                      | Destination              |                     |
| Beginning odometer (mi)                        | Ending odometer (mi) |                          | Total trip miles    |
| Route traveled / highways / intermediate stops |                      |                          |                     |

## Distance by jurisdiction

| State / jurisdiction                                  | Entry point / date / meter | Exit point / date / meter                | Miles |
|-------------------------------------------------------|----------------------------|------------------------------------------|-------|
|                                                       |                            |                                          |       |
|                                                       |                            |                                          |       |
|                                                       |                            |                                          |       |
|                                                       |                            |                                          |       |
|                                                       |                            |                                          |       |
|                                                       |                            |                                          |       |
|                                                       |                            |                                          |       |
| Sum of jurisdiction miles                             |                            | Difference from trip miles / explanation |       |
| Notes / corrections / additional trip-sheet reference |                            |                                          |       |

Meter changes or gaps must be explained. Preserve source electronic vehicle-tracking records where used; a paper or Word copy does not replace required electronic data. Fuel record follows.

# IFTA Trip Fuel Record

|                                             |                                  |
|---------------------------------------------|----------------------------------|
| Carrier / IFTA licensee                     | Truck / tractor unit or VIN      |
| Trip reference / beginning and ending dates | Purchaser name shown on receipts |

Record propulsion fuel and retain supporting receipts or transaction listings. Keep reefer fuel separate; do not add it to propulsion totals. A handwritten entry does not itself establish tax-paid credit.

## Fuel purchase 1

|                                    |                                                  |                                      |
|------------------------------------|--------------------------------------------------|--------------------------------------|
| Purchase date                      | State / city                                     | Receipt / transaction reference      |
| Seller name and address            |                                                  |                                      |
| Fuel type                          | US gallons                                       | Price per gallon OR total price (\$) |
| Unit fueled / propulsion or reefer | Purchaser if different / supporting record notes |                                      |

## Fuel purchase 2

|                                    |                                                  |                                      |
|------------------------------------|--------------------------------------------------|--------------------------------------|
| Purchase date                      | State / city                                     | Receipt / transaction reference      |
| Seller name and address            |                                                  |                                      |
| Fuel type                          | US gallons                                       | Price per gallon OR total price (\$) |
| Unit fueled / propulsion or reefer | Purchaser if different / supporting record notes |                                      |

## Fuel purchase 3

|                                            |                                                  |                                      |
|--------------------------------------------|--------------------------------------------------|--------------------------------------|
| Purchase date                              | State / city                                     | Receipt / transaction reference      |
| Seller name and address                    |                                                  |                                      |
| Fuel type                                  | US gallons                                       | Price per gallon OR total price (\$) |
| Unit fueled / propulsion or reefer         | Purchaser if different / supporting record notes |                                      |
| Propulsion US gallons total for this sheet | Reefer US gallons total separately               |                                      |
| Prepared by / date                         | Additional fuel sheets / receipt references      |                                      |

Attach readable fuel receipts or transaction listings. Enter bulk-fuel withdrawals in the supporting bulk records. This is a source record, not an IFTA return.
